

ABOUT US

Nihon Global Gateway is a network of smart companies, services, technologies and team connecting Japan to the global community and vice versa.

We serve as a gateway of endless opportunities to both Japanese and Indian companies to start on their new endeavors.

With a team of expert knowledge and understanding of both the Japanese and Indian market, Nihon Global Gateway aims to become a leader in bridging the gap between the two countries.

We have a well-established base in India in terms of connections with various companies and a highly skilled team working to provide for every project with professional expertise.

NIHON.GLOBAL™

A Japanese business gateway
