scapic

In partnership with
NIHON.GLOBAL™
A Japanese business gateway

Overview

Scapic is building a platform to enable businesses to create product experiences that are simple, fast & stunning. Our platform allows users to create AR enabled product viewers that anyone can integrate onto our pages – from a custom webpage to a CMS like Shopify. As Scapic is a cloud-based content collaboration tool, there is no end app installation necessary to view any of these experiences.

Date Launched	HQ Location	Team Size	Fund Status	Contact
Jan 2017	Bangalore, IN	20 members	Seed - $500k	hello@scapic.com
